Re: **Statement from the Village of Willowbrook regarding a lawsuit filed in federal court**

It is important that our residents understand that the Village of Willowbrook takes any allegation of discrimination very seriously.

The Village is aware it has been named in a federal lawsuit filed recently. However, the Village has not been formally served at this point.

Allegations of any type of discrimination against citizens deserve a full and thorough review of the facts. The Village of Willowbrook is committed to looking into this matter to determine if allegations contained in the suit have merit.

We will carefully review the lawsuit and take whatever appropriate steps are necessary going forward.
