Capital Improvement Program

The Village of Willowbrook's capital program represents the Village's commitment to future financial planning and investment in critical Village infrastructure. The Capital Improvement Program (CIP) is a governmental fund that exists in the Capital Projects Fund for the purpose of aggregating resources to complete infrastructure improvements and large-scale capital projects. These projects are largely funded by the General Fund, the Water Fund and grants.

Capital projects cover the full spectrum of investing in the Village's infrastructure and include facility updates, construction or reconstruction of Village streets, infrastructure for water and stormwater utilities, major equipment, vehicle purchases, and technology updates.

During preparation and review of the capital program, staff sets priorities and identifies which projects can be accomplished in any given year within the limits of the Village's financial outlook. The Village also incorporates resource allocation, prioritization, consideration of external factors, and cost evaluation to arrive at the final capital program.

Water Fund

Line-Item Description

The Water Fund is an enterprise fund which means the fund operates as a business and user charges are the main source of revenue, as opposed to taxes or other general revenues. This fund is used to account for the revenue and expense activities associated with the delivery of water to customers.

The Willowbrook Water Fund includes operational activities performed by the following departments: Village Administrator's Office, Police and Public Works. The Village Administrator's Office performs support activities to assist with service operations and the overall management and administration of the fund and its associated operations. The Police Department performs minor assistance with Public Works as it pertains to traffic control related to water main breaks and snow control operations. Lastly, the Public Works Department performs general maintenance on the system such as water main break repairs, hydrant flushing, meter replacements, and water quality testing. Furthermore, these activities include responding to water and sewer customer inquiries, water and sewer billing, accounts payable, payroll, financial support, information technology support, and general management and administration.

Opportunity Reserve (OR) Fund

The Opportunity Reserve fund will receive any surplus from the General Fund that is approved by the Board of Trustees. This reserve will add future budget flexibility as it will be available for potential capital projects, economic development, debt payments, unforeseen events or need. Any expenditure from this fund must be appropriated and approved by the Board of Trustees.
