RE: Invitation to Conduct Rule Making Public Hearings in Illinois

Dear Mr. Wehrum:

I would like to personally thank you and the United States Environmental Protection Agency (EPA) for holding the May 29, 2019 public meeting in Village of Burr Ridge. The Village of Willowbrook has been ground zero for the Ethylene Oxide issue as it pertains to the Sterigenics facilities. Our residents, employees, local businesses and visitors have all been greatly affected by this situation. I would like to reinforce the invitation that Mayor Gary Grasso from the Village of Burr Ridge has made, both in person at the public meeting but also via letter, and invite the EPA to hold their public hearing related to the rule making, regulatory processes and/or permit renewals locally in Willowbrook or Burr Ridge Illinois.

The Villages of Willowbrook and Burr Ridge stand ready to assist and support the public hearing process much like we did with the May 29<sup>th</sup> EPA open house. The decisions to be made by the EPA will have an enormous impact on the quality of life for our citizens and business community. Our residents deserve the opportunity to participate in this process locally and their voices need to be heard.

Please contact Village Administrator Brian Pabst at 630-920-2261 or by e-mail at [bpabst@willowbrook.il.us](mailto:bpabst@willowbrook.il.us) to conduct any ongoing coordination.

Sincerely,

Frank Trilla, Mayor  
Village of Willowbrook
