For Immediate Release

March 10, 2020

Village of Willowbrook Municipal Offices Cyber Attack

On or about the morning of Friday, March 6, 2020, the Village of Willowbrook's municipal computer systems were on the receiving end of what appears to be a ransomware attack. Staff immediately took steps to minimize the impact and investigate the cause and effect. This has included working closely with United States Secret Service officials to fully understand the attack's scope and origin. The forensic investigation is ongoing. It has not yet been determined whether or what information may have been implicated.

Importantly, the Village's critical operations and public services are unaffected and have continued without interruption. Additional information about the incident will become available as the investigation continues.

For further information please feel free to contact our Village Administrator, Brian Pabst at bpabst@willowbrook.il.us or via phone at 630-323-8215.
